Carpet Sanitization (Bleach alternatives)

Issue:

Bio-based carpet contaminations have raised the issue of a need for products that are both effective against a broad spectrum of bacteria, viruses, and fungi and also safe for use on carpet.

Bleach Alternative Solutions:

Pre-Spray Detergents:

- Microban Clean Carpet Sanitizer, EPA #70263-7
- Envirox H2Orange2 117, EPA #69268-2

Broad-Spectrum Sanitizer:

- Microban X-580, EPA # 70263-3

Process:

For instructions on the proper use of the above products, please see The Mohawk Group's *Biological Spot Removal* brochure.

The above listed products have been found to be effective cleaning and sanitizing agents and safe for use on carpet when used properly. Mohawk makes no guarantees that these products, or the procedure listed in the spot removal brochure, will resolve all issues related to bio-based contaminations of carpet.

The Microban products listed above may be purchased through Jon-Don by calling 1-800-400-9473, or by visiting their website at www.jondon.com.

Envirox may be reached at 1-800-281-9604, or at www.enviroxllc.com.
